

## Afraid of Friendship

X-left to die

Please stay out of my life  
Now I don't like you anymore  
And please stop (to) your tries  
Will not making love nevermore  
It's time to say goodbye  
for next chance I am not a strong  
Please nevermore, nevermore

You always made me cry  
Now I don't like you anymore  
I can't hold on life in lies  
Everyday I hear your angry words  
It's time to say goodbye  
for next chance I am never strong  
Please nevermore, nevermore

Can't you see  
No one likes me  
This little light shines for you

(Go away  
far from me)

All the bruises were left behind me  
had broken (broken) my heart  
It'd broken (broken) my trust  
If you everyday feel the same pain  
than I love you such  
Angels wait for us  
If you believe that we'll never see each other  
It had broken (broken) my heart  
It'd broken (broken) my trust  
If you everyday feel the same pain  
so I love you such  
Angels wait for us

This little light shines for you

(Go away  
far from me)
