

# Bang!

X-left to die

All days I'm sick and confused  
I'm looking for way out of sadness  
I swear I go a little psycho in my head  
Why must you do this, you are smiling like a bitch  
Fuck you! I'm gonna commit suicide, commit sin

Memories passed away  
All my friends say goodbye  
The only reason is...  
It tore us from each other, shadows dragged me down

Angels are staying around, I'm deformed like a clown  
Now I feel like a freezing but it's bitter and strange  
Hate you! It all faded away, I'm gonna change it

Memories passed away  
All my friends say goodbye  
The only reason is...  
Floating in fear to grace, growing to life again  
The only reason is... bang! Bang! Bang! Bang!

Bang! Bang! Bang! Bang! ...

Want to know where's the key? But there is no way  
Bang! Bang! Bang! Bang!  
I'm such a wreck? I'll never be the same again  
Bang! Bang! Bang! Bang!  
Tomorrow I'll never have to know what is fair  
It gives you many faces that were made in the pain  
Bang! Bang! Bang! Bang! ...
