

## Game of Love

X-Perience

It's just one year ago  
That I've met you at a show  
You were the clown  
I was the fool  
Right now it's vice versa  
And I know it's just because  
You've always been  
The fool for me

Do we feel the same way  
Or do you want to play the game of love  
On and on

You took me to a bar  
To tell me who you are  
You never know  
What you want  
And you want me for good  
Just if you're in the mood  
To spend the next  
Night with me

Do we feel the same...  
Do we feel the same...

Do we feel the same way  
Or do you want to play the game of love  
On and on
