

I Feel Safe

X-Perience

(I feel safe, I feel safe)

I can't live without you nor
I can't live with you no more
and you make me feel so bored
there is no more love to store

Get me right
you don't hurt me anymore
I have nothing left to say
I will find my perfect way
Get me right
I don't need you anyway
I don't need to fear or pray
I will make my brandnew day

Don't you know I feel safe
at the place I will hide
for the rest of my life
I'm getting strong and brave
and the passion I feel
makes me feel so real

I will open up the door
fleeing shadows on the floor
it was nothing but a dream
nothing counts but endorphin

Get me right
you don't hurt me anymore
I have nothing left to say
I will find my perfect way
Get me right
I don't need you anyway
I don't need to fear or pray
I will make my brandnew day

Don't you know I feel safe
...

It's my life to reveal
