Leave Me Alone

X-Perience

I don't want to be alone
don't leave me tonight
come on, hold me tight
baby, don't leave me alone

I don't want to
explain my feelings to
you, my friend
cause you'll never understand

I just want to
be in your arms tonight
i don't care
if im wrong or if im right

The morninglight
will take the love away
stay with me
till the breakin of the day

Hold me now
baby, don't leave me tonight
love will die
in the golden morninglight
