

## My Life Goes On

X-Perience

Changes all around and everytime  
And everything is changed in my head  
I'm longing for a change  
I wouldn't beg but for a change  
I never will get  
I spend my time in learning  
Everytime I learn I turn blue into red

My life goes on  
I just wanna have fun  
Leaving shadows into the sun

I get in troeble with some friends of mine  
They've told me there is no need to change  
We quarrel it becomes a colder time  
And now im freezing down to the bones  
Nothing changes but I've lost 2 friends  
And that depends on changing myself
