

Poison Kiss

X-Perience

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why

Give me the Poison Kiss
Leave me alone like this

If I could see the world
Through someone else's eyes
I would see all the lies
'till dawn before sunrise
Give me a smile and I cry

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why

Give me the Poison Kiss
Leave me alone like this

I hide behind a smile,
Not asking for more and for more
Don't you know that I never thought
this could happen before
There comes a time to be free
To be free

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why

Give me the Poison Kiss
Leave me alone like this

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why

Give me the Poison Kiss
For a long and last goodbye
Leave me alone like this
So I never will know why
