

# Dark Night of the Soul

Xandria

Abide with me or redeem me.  
Fall ends winter is high.  
With a gentle voice I'm guided  
to the void where loneliness roams...

Rename me like a master from upon your bloody throne  
I'll go forth here in silence and abandon my home.  
In the last light of noonday I fell wilted away.  
Oh mother please come save me  
from the dark night of the soul.

I have come to see you reviled me  
reproved me with a sigh

Now from different shores a made up story's told  
through my fears of yore...

Rename me like a master from upon your bloody throne  
I'll go forth here in silence and abandon my home.  
In the last light of noonday I fell wilted away.  
Oh mother please come save me  
from the dark night of the soul.

Oh mother please come save me  
from this emptiness lead me away  
Oh mother please come save me from this emptiness  
Save me now from the dark night of the soul.
