## **Fight Me**

I cannot turn away From this obscurity A nameless Force Is stealing my face Come and - try to - fight me You will - never - break me I know it's the final breath I'm taking if I let you win So I cannot be the one forgiving or I'm giving in Now I can see you You were just hiding You won't betray me Cause now I know your name Come and - try to - fight me You will - never - break me

I know it's the final breath I'm taking if I let you win So I cannot be the one forgiving or I'm giving in
