

# In Too Deep

Xavier Naidoo

You are the beauty in morning  
You are the beauty in the night  
And I just want to wake up knowing  
Everything is just alright

Schwer zu sagen, was ich tue  
Vielleicht finden Sie uns bald  
Ich genieß weiter die Ruhe  
Und deine Liebe ist mein Halt

We are too deep  
Far too deep to say goodbye  
We are too deep  
Far too deep to say goodbye

Jedes Wort scheint jetzt zu viel  
Mach die Worte zum Gefühl  
Ich weiß, das hier ist kein Spiel  
Und doch alles es alles, was ich will

I don't want to say goodbye  
So let's just hold each other tight right now  
It's just us  
I now the world's chaos  
But my peace comes from knowing I found you now  
That's deep  
I don't wants this moment to end  
Let's transcend to higher level  
We're god condemned, yeah  
There is still hope and right now you will witness  
Like the newspaper pictures  
Better yet like the bible scriptures  
The best part is knowing that he there with us  
So deep it's not too late, don't cry  
Cause you know there is a plan

Let me stand by your side and be there to the end  
What we have is something I will defend  
Give me your hand  
Hold tight, just trust  
Even though it's come to this we've got us

We are too deep  
And I don't wanna to die  
We are too deep  
Far too deep to say goodbye

all these forces come together to destroy what we call love

We are too deep  
And I don't wanna to die  
We are too deep  
Far too deep to say goodbye

We are too deep  
And I don't wanna to die  
We are too deep

Far too deep to say goodbye
