## **Conceal Me**

Hey Now I'm speaking once again Oh yeah My name is in your head So strange These people that you have That's right my friend It's all just where you're at This is how I like to play This is how I feel these days This is how I like to play

Take me Conceal me where you like You will see it open From within I will rise Like seasons Your flavour will die On and on these people They'll listen every time

This is how I like to play This is how I feel these days

This is how I like to play This is how I feel these days **Xavier Rudd**
