

# Hope That You'll Stay

Xavier Rudd

Sun floatin' up  
Slippin' back down  
Conjunction with the moon  
And light from the ground

Fire, it burns  
Rain, it cools  
I hope that you'll stay  
I hope that you'll stay

Pulse to pulse  
All of these years  
Reflections on your face  
The taste of your tears

Centuries gone  
For the spirits you'll face  
I hope that you'll stay  
I hope that you'll stay

Children grow up  
Elders grow down  
Watch them fly high  
And crash to the ground

And help them move on  
Welcome them home  
And hope that they'll stay  
And hope that they'll stay

I hope that you'll stay  
I hope that you'll stay  
You see, I hope that you'll stay

I hope that you'll stay  
You see, I hope that you'll stay  
I hope that you'll stay
