

# Shiver

Xavier Rudd

Coming up strong, beyond comprehension  
I'm feeling it again, the shiver through my system  
Can push it all away, change my opinions  
Coming too strong, a door needs to open  
Came through her again, from a sister bearing message  
Directed inside, deep within the chambers

I'm feeling it again, the shiver through my system  
Coming up strong, beyond comprehension  
The wind, brings changes in direction  
Of leaves and seeds and journeys of souls  
So much of lives spent running away from moments  
But the right moments they catch you in the end

He's been climbing now for years before his time  
Searching around  
Searching high and low for support of some kind  
Feeling alone  
Feeling lonely on his quest for reasons why  
Pushing him down  
Seeking reasons for the rage that he was dealt  
Where they now?  
Who are the people that have shared his higher self?  
The higher he goes  
The more he questions all the punches that were thrown  
Pushing him down  
To the fragile place he feels and knows so well  
Spinning around  
In the fragile place he feels and knows so well

He is climbing up the mountain  
And searching for the other side  
Seeking shelter from the rain  
And the from pain he feels inside  
He sees that now it's time to move on  
Time to let the ropes come loose  
See your father is too cold  
And he may never let you through  
And the anger and resentment  
Will only churn you up inside  
But you are on another level  
And they will only deny  
And you will see it in your young hearts  
As they give you what they know  
And it will always come around  
But it is time  
To let it go  
Let it go  
Let it go  
Oh, let it go
