

## Strength Of Persuasion

Xentrix

Cry out at another.street protest  
Against the power crimes  
Is my voice heard?  
I have no time for this, I have no-time to waste  
I feel he hate surge  
Fucked up and cynical, influences criminal  
Wearing he colours of respectability

I see them cowered into loyalty  
I feel the hate surge  
I feel your silver tongue destroying me  
I feel he hate surge through  
Eighteen in the gutter with a hate sign  
In the real world  
How could you stand by  
Some blame the films we rent  
I say the system sent them to their suicide  
Run around never look down  
At the rags on the underground  
I see your lips move but you're saving nothing  
I can hear

I see them cowered...  
When the time comes where are you gonna be?  
Anywhere near me?  
Inside us all there-burns a self-destructive urge  
On which you prey and feed  
Twenty four with a future  
You wanna give me a new job  
May sound ungrateful but there's some of us don't want to bleed

I see them cowered...
