

Queen of the Losers

Xiu Xiu

[?] had a crush
Face made up for taking a punch
I want aid and I will not wait

Everyone loves you
The pain has just begun
And everyone hates you
The pain has just begun
Everyone loves you
The pain has just begun
And everyone hates you
The pain has just begun

Rough and ready to be never awake
How do you feel, I said, pretty okay
Queen of the losers, take it take it away

Everyone loves you
The pain has just begun
And everyone hates you
The pain has just begun
Everyone loves you
The pain has just begun
And everyone hates you
The pain has just begun

What's your name? Fucking nothing
What's your name? Fucking nothing
What's your name? Fucking nothing
