

## Wet Dream

XP8

I breathe your air  
I taste your lips  
I bite your kiss  
Your finger tips  
I feel you close  
I take your soul  
Don't stop me now  
So close to home  
Your lips on mine  
I'll push inside  
You take my smile  
I'll take your eyes  
you hear me laugh

I hear you cry  
I'll cut you up  
You'll ask me, 'why..?'  
Just ask me why  
I'll tell you why  
We know you would  
I eat your sighs  
You give me blood  
I'll give you lies  
Just give you lies  
Give me blood  
I'll give you lies  
Pushing...  
Rushing...  
Crushing...  
I breathe your air...
