

Let Me Know

Xscape

I got something for you,
And I think you're sexy,
And if you want me let me know.
You ain't gotta spend no money,
Just a little time with me honey,
That will let me know you love me so.

There are so many things,
That I want to talk to you about.
Like do you want me, do you love me,
'Cause I have my doubts.

I have a funny feeling,
That you want me around for just one thing,
To push your little ego,
With the knowledge that I bring.

I got something for you,
And I think you're sexy,
And if you want me let me know.
You ain't gotta spend no money,
Just a little time with me honey,
That will let me know you love me so.

You know that I want you,
And I made it very clear.
I would never ever hurt you,
I'd never let you shed a tear.

The only thing I want to know,
Do you feel the love for me.
I'm not gonna keep on waiting,
That's not how it's gonna be,
You got to...

Let me know,
I never knew that love could ever have me slipping.
Let me know,
I sit in my room thinking of you at night trippin'.
Let me know,
I never knew I would ever get caught caking.
Let me know,
And no man would ever have me shaky.

I got something for you,
And I think you're sexy,
And if you want me let me know.
You ain't gotta spend no money,
Just a little time with me honey,
That will let me know you love me so.

I got something for you,
And I think you're sexy,
And if you want me let me know.
You ain't gotta spend no money,
Just a little time with me honey,
That will let me know you love me so.
