

Love On My Mind

Xscape

Boy, I can't wait to get you alone inside my house
'cause, baby, it's you and only you that I keep on thinking about.
I know what you wanted , how good my love could be.
Tonight you'll get the answer.
I'll satisfy your curiosity.

Take me away, in ecstasy.
I wanna know how it feels to be loved, yeah.
Boy, take the time 'cause I have all night.
I'm gonna show you what I 've been thinking of.
I got love on my mind.
I know I should wait, but tonight feels right.
I think it's about that time.
I got love on my mind and I'm in the mood
to be moved and do all the things you want me to.

I've been watching you and thinking to myself
you're looking so, so def to me and I'm feeling so sexy.
You know I never felt this way before.
I really can't help myself 'cause I'm thinking of nothing else.

Take me away, in ecstasy.
I wanna know how it feels to be loved, yeah.
Boy, take the time 'cause I have all night.
I'm gonna shoe you what I 've been thinking of.
I got love on my mind.
I know I should wait, but tonight feels right.
I think it's about that time.
I got love on my mind and I'm in the mood
to be moved and do all the things you want me to.

I got love on my mind.
I know I should wait, but tonight feels right.
I think it's about that time.
I got love on my mind and I'm in the mood
to be moved and do all the things you want me to.
