

One Of Those Love Songs

Xscape

When you're far from me there's a melody
That always brings me closer to you
Our own symphony, just for you and me
And I hope they play it real soon
Everytime I wish that we were dancing slow
That's when I hear our song on the radio, I know

This is one of those love songs
That you hear in the middle of the night
Makes me want to be with you wherever you are tonight
And whoever's listening just hold your lover tight
?Cause this is one of those love songs
One of those love songs

As the days turned into years we had our share of tears
But they never seem to last long
Cause the sadness disappears
Everytime I hear our favorite love song
Now the candles burn as I lay here in my bed
As the melody keeps playin' over and over in my head

This is one of those love songs
That you hear in the middle of the night
Makes me want to be with you wherever you are tonight
And whoever's listening just hold you lover tight
?Cause this is one of those love songs

That you never want to end
And you hope the DJ plays again
And again

This is one of those love songs
That you hear in the middle of the night
Makes me want to be with you wherever you are tonight
And whoever's listening just hold your lover tight
?Cause this is one of those love songs
One of those love songs
