

## Down a Peg

XTC

You took me  
Down down down  
Down a peg

Thank you  
For taking me down a peg  
Thank you  
It's true  
My position had gone to my head  
Thank you  
Like some commissionaire who has ideas above his station  
Or some jumped up councillor who think he's lord of creation

You took me down down down down a peg  
Down down down down a peg

Thank you  
For bringing my feet to the floor  
Thank you  
It's true  
My head wouldn't go through the door  
Thank you  
Sometimes this job puts you so high you forget your roots now  
Only my folks see I'm getting too big for my boots now

You took me down down down down a peg  
Down down down down a peg  
Down down down down a peg

Thank you  
For taking me down a peg  
(You took me down down down down a peg)  
Thank you  
It's true  
My position had gone to my head  
(You took me down down down down a peg)  
Thank you
