

Smokeless Zone

XTC

I'm living in my smokeless zone
My house is not a happy home
I got to do something 'for I kick the bucket
I'm living in this smokeless zone

I clean my dusty window sills
Everything I grow it kills
I don't want to stay in this street any longer
Living in this smokeless zone

Englands green, once so pleasant land
Living on a time bomb yeah
The whole damn place is going to turn to sand
Bah bah

I cough upon my wheezy chest
My penicillin does its best
There's only one cure for an unhealthy body
Get out of this smokeless zone
