

Wounded Horse

XTC

Well I stumbled
and I fell
like a wounded horse
When I found out
you'd been riding
another man

Well I staggered
round in circles
on a loser's course
When I found out
you'd been riding
another man

Well my friends all said
Just climb back in the saddle
And you know that everything will turn out right
Well my friends all said
You won't sink if you paddle
But my ship drifts on into an endless night

Well I bit out
my own tongue
like a wounded horse
When I found out
you'd been riding
another man

Well my friends all said
Just climb back in the saddle
and you know that everything will turn out right
Well my friends all said
You won't sink if you paddle
But my ship drifts on into a endless night

Well I bit out
my own tongue
like a wounded horse
When I found out
you'd been riding
another man

When I found out
you'd been riding
another man
