

The future of your life is right in front of your eyes  
just look up in the sky and I promise you'll see  
a bunch of L7's better side of the heavens  
and if you aint checkin than the time will be  
in 2015 (fi-fifteen, fi-fifteen)  
in 2015 (fi-fifteen, fi-fifteen)  
in 2015 (fi-fifteen, fi-fifteen)  
in 2015 (fi-fifteen, fi-fifteen)

The year is here  
watching us squarians lives appear  
L7's all up in the air  
they scared, we gave them a warning like global warming  
I guess they didn't care  
well, I would never ever allow that to control me  
to see if you out last ya homies  
turn to XV when they weren't f-cking with me like foreplay  
tehy abbreviated the OutKast like OK  
it'd be a while for you see me, G  
next flow is PPV on MP3  
genuinely bare it all like MGD  
but now it all seems closer like it's in 3D  
welcome to the future,  
flux capacitors capacity is to the maximum  
while I'm asking them what's a masterpiece  
cause next year aint gon be what it seems  
year of the squarians, 2015

It's like the second season of V  
we coming for em all  
they bitches screaming at me  
for wishing on star  
surprising the f-ck out of them, look  
I'm droppping jaws, they leaving it up to me  
to fix the ending of laws  
they all on they toes  
and n-ggas that spit flows is cool  
but I feel like I got more to prove  
so when n-ggas stay bussin' when y'all drove to school  
in the cut like Neo's ? in the open wound  
nominated for major dudes that supposed to lose?  
I'm outta space cause I never was a local dude  
turned up noses and boo's turned to ohh's and oooh's  
all the fans I have now are probably mostly new  
cause n-ggas drop off and knock off  
they probably would never pop off  
and though I know I'm plush  
they wont let me get the shot off  
and f-ck em all, thought I wouldn't succeed  
til they see, next year will be 2015

Yeah, you might be able to tell  
bout the atmosphere  
where we are, Squaria  
next year is the year that all Squarians been waiting for a very long time  
I know that on Earth its called 2011  
but on Squaria, next year will be

2015 (fi-fifteen, fi-fifteen)  
2015 (fi-fifteen, fi-fifteen)  
2015 (fi-fifteen, fi-fifteen)  
2015 (fi-fifteen, fi-fifteen)
