

## Boy From Kansas

XV

I don't drink or smoke I do my thing  
I just do my songs make my beats  
I just roll with my dogs keep my peace  
But if ya'll want be I keep my peace  
I don't club too much I stay at home  
I like to cruise a lot don't answer the phone  
I got my girl wrapped up don't need no more  
I'm like not live too long I see the globe  
I'm humble and cool ask my dudes  
Like sez and bling, ace and dubs  
Or stringer and block 7 and bounce  
Or haters that know me around the town  
I'm king of the city I make that crown  
So if you want once we can battle it out  
I have a lot to say so you can stay with the pen  
You can break it down in the end

I'm just a boy from kansas  
No matter where your from don't forget where you come from  
I'm just a boy from kansas  
When the heart is in your home you know that's where you from  
I'm just a boy from kansas  
You went all around the globe but you know that's where you from  
I'm just a boy from kansas  
Your still that boy from kansas just tell em where your from

I like only to rap benzes and blacks  
I got homies who work homies who track

Nah homie that's just how I do  
You never knew  
I'm complex  
I went to black and white schools  
Took a little from the bad took a little from the good  
Took a white people hat brought it back to the hood  
I'm sorry if I'm misunderstood

I'm just a boy from kansas  
No matter where your from don't forget where you come from

Just throw the boy a sign holla at me man  
If I'm rolling through your city yea you see the boy busy  
If I have the look fly take a flick man  
I don't do much fair
