

Lonely Without You

XYZ

It's late you're not around
It's a story I know by heart
It's cold your loving is gone
I'm gonna try not to take it hard

You call to say you're alright
Tell me what are you trying to hide?
Goodbye you hang up the line
For a minute I miss your lies
But it s alright

I believe I feel your heat inside
I believe I want your love tonight
Sorry but I'm lonely without you
I don't know what to do
I wanna get over you
Sorry but I'm lonely without you
I don't know what to do
Living is loving you

It's dawn I turn off the lights
I've been dreaming of you thru the night
But it's time to go back to the world
I very got to cut loose your ties
I believe I want your love tonight
I'm afraid I feel your heat inside

Sorry but I'm lonely without you
I don't know what to do
I wanna get over you
Sorry but I'm lonely without you
I don't know what to do
Living is loving you

Where did we go wrong?
And I dream of yesterday
I read love in your eyes
Now I scream your name away
Blind in the night
