

Danger, empty fame
If you step out of line
Stranger, I barely know your name
But you're already mine
Stardom overdose, powder up your nose
Now you're ready to fly
What the hell, who's gonna tell
On your rock'n'roll high
Oh queen of a lie
Oh lover to cry

Maggy
Stars in your eyes
Maggy
Tears in the night

Sunrise, I won't mind
If you kiss me goodbye
You gotta let go, honey don't you know
Angels meet in the sky
Oh queen of a lie
Oh lover to cry

Maggy
Stars in your eyes
Maggy
Tears in the night
Maggy
Rock'n'roll high
Maggy
Kiss me, kiss me goodbye
Maggy

(solo)

Maggy
Stars in your eyes
Maggy
Tears in the night
Maggy
Rock'n'roll high
Maggy
Kiss me, kiss me goodbye
Maggy
