

Take What You Can

XYZ

The Greyhound pulls away
as the night takes on the day
Exhaust and desert dust for a sky
Survivor of a dream,
teenage versus movie scene
The victim has no right but to die
If you make it alive,
soon you won't give a damn.

Take what you can
Long is the night out in the rain
Take what you can
'Cos you might never, never, never see it again.

Get off the bus to fame,
nobody knows your name
The freeway dumps a fool failure blind
The Greyhound pulls away
as the night takes on the day
Exhaust and desert dust for a sky

If you make it alive
soon you won't give a damn

Take what you can
Long is the night out in the rain
Take what you can
'Cos you might never, never, never see it again
