## **Tied Up**

Maybe I'm under a spell, addiction is blind Sorry heaven or hell, I don't seem to mind

I'm caught in a game Where a heartache is fine

I pull on the chain When pleasure is pain All the pleasure is mine

You got me tied up in love Hunter and prey Oh baby Tied up in love and I can't get away I'm tied up in love

Maybe we're locked in a cage, partners in crime Sorry passion or rage, show me the line

I'm searching for me Through the eyes of a fool I can't seem to see Who else to be But yours, tender or cruel

You got me tied up in love Master and slave Oh baby Tied up in love and I can't get away I'm tied up in love

I'm tied up in love And I can't get away Tied up in love Hunter and prey You got me tied up in love And I can't get away I'm tied up in love
