

# I Walked Alone

Yacht

The moon goes round the earth  
And the moon controls the time  
And the earth goes round the sun  
And the sun provides the light  
And the light makes all of life  
If my friends will crowd  
It might not be the biggest  
But it definitely be loud  
And if my enemies were on me  
Try to take a stone  
Yeah, me proud

The cat catches the mice  
And the mice just wasn't home  
And the dog chases the cat  
And the cat wants to be alone  
If all the animals have souls  
Yeah all the animals have soul  
If my friends were drugged  
One of them can't afford it  
But it's already in their blood  
And if your enemies caused the cancer  
Will find a cure for you  
Bring it to the club  
Bring it to the club

I walked alone  
Until we are there  
We walked against  
The earth to remain  
Are you I walked alone  
Until we met  
And we we walked again  
Into the earth until we met  
You you I walked alone

The moon goes round the earth  
And the moon controls the time  
And the earth goes round the sun  
And the sun provides the light  
And the light makes all of life

I walked alone  
Until we are there  
We walked against  
The earth to remain  
Are you I walked alone  
Until we met  
And we we walked again  
Into the earth until we met  
You you I walked alone
