

If I Lost The Best Thing

Yael Naim

If I lost the best thing
I ever had
Because of me
I was selfish, stupid and blind
How can it be
That it's so ending
Now we can stop pretending
It just faded so fast I think
I lost you

If you were the best thing
I ever had
To blind to see
We were happy,
How can I find some peace in me
Cause we're both changing
It's now that we've stop caring
It's just time that has made me grow
Apart from you

Cause it's over, it's all over,
it's all over, it's over
it's over, it's all over, it's over now

If we loose the best thing
We ever had
If we forget
Just hold me here in your arms
Like we just met
We will be tender
and say that we'll for ever
And just hope it will last because
i found you

It's now that we've stop fighting
it's now that it's not hard just to stand hand in hand
And always love you
Because I love you
