

# Starship

Yahzarah

Hello, ladies and gentlemen  
I'll be your hostess for today's flight  
Please fasten your seatbelts  
We should be arriving promptly  
700 light years in outer space

I finally found the place  
Where I don't feel mistreated  
Finally found the space where I feel safe  
I'm gonna go somewhere  
Far beyond the sky and the trees  
Gonna go somewhere where nobody knows my name

I'm gonna go somewhere  
Where nobody knows my shame  
Gonna lay down the past  
So I'm gonna change my name, oh, oh  
In 5... 4... 3... 2... 1

See, I'm gone in my starship  
I'm headed straight to the moon  
I'm gone away in my starship  
I'm headed in my starship  
I'm going straight to the moon  
I'm gone away in my starship

I finally found the ground  
Where all the seagulls wanna fly high  
Finally found the place where there's more to life  
Than stealing and getting and eating and fighting, yeah, yeah  
Finally found the place  
Where I can spread my arms as far as I can  
And fly high ee-ee-eee-eee  
Far from the sky and the trees

I'm gonna go somewhere, yeah  
Where nobody knows my name  
I'm gonna lay down the past  
So I'm gonna change my name  
And lay down my heavy burdens  
In 5... (5...) 4... (4...) 3... (3...) 2... (2...) 1

See, I'm gone in my starship  
I'm headed straight to the moon  
I'm gone away in my starship  
I'm headed in my starship  
I'm going straight to the moon  
I'm gone away in my starship

See, I'm gone in my starship  
I'm headed straight to the moon  
I'm gone away in my starship  
I'm headed in my starship  
I'm going straight to the moon  
I'm gone away in my starship  
My starship  
I'm headed straight to the moon

See, I'm gone in my starship (I'm going there)  
I'm headed straight to the moon  
I'm gone away in my starship  
Ohh, yeah, hey, hey, yeah  
I'm headed in my starship (I'm going there)  
I'm going straight to the moon  
I'm gone away in my starship
