

Fuck Me

Yann Tiersen

I know you know we're all falling into a deep oblivion

I know you know we're all falling into a neverending mess

So we have to take care, take care, and share it, share it, share it together (2x)

So let's get undressed, we need to feel it

Please let's get undressed, we need to live it

and sing: fuck me fuck me fuck me fuck me you make me come again, you make me come again (2x)

I know you know we're all falling into a deep oblivion

I know you know we're all falling into a neverending mess

So we have to take care, take care, and share it, share it, share it together (2x)

So let's get undressed, we need to feel it

Please let's get undressed, we need to live it

and sing: love me love me love me love me, you make me love again, you make me love again (2x)

love me love me love me love me, you make me love again, you make me love again love me love me love me love me, you make me love again, you make me love again love me love me love me love me, you make me love again, you make me love again
