

## In Our Minds

Yann Tiersen

In our minds, They're a town in our minds  
A town we go to sometimes,  
A town we know just in our minds.

With different people, Living different life's  
In different streets, Under a different sky.

How can we know, How far we go,  
How can we know, How far we go.

In our minds, They're a town in our minds  
A town we go to sometimes,  
A town we know just in our minds.

With different people, Living different life's  
In different streets, Under a different sky.
