## **In Our Minds**

**Yann Tiersen** 

In our minds, They're a town in our minds A town we go to sometimes, A town we know just in our minds.

With different people, Living different life's In different streets, Under a different sky.

How can we know, How far we go, How can we know, How far we go.

In our minds, They're a town in our minds A town we go to sometimes, A town we know just in our minds.

With different people, Living different life's In different streets, Under a different sky.
