

## Friends In High Places

Yashin

You think you can stop us in our tracks  
Now it's all gone wrong  
You've had your 15 minutes let's move on

You think I can't see what you're doing

It won't be, it won't be long, o'course it won't  
It won't be, it won't be long, o'course it won't  
The clocks will turn to our time  
It won't be long  
It won't be, it won't be long, course it won't

It's someone you love, which soon you loath

And you think I can't see what your doing  
You think I can't see

It won't be, it won't be long, o'course it won't  
It won't be, it won't be long, o'course it won't  
The clocks will turn to our time  
It won't be long  
It won't be, it won't be long, course it won't

This is the stage, you don't belong  
(Ahhhhh)

This is the stage, you don't belong

And you think I can't see what your doing  
You think I can't see

It won't be, it won't be long, o'course it won't  
It won't be, it won't be long, o'course it won't  
The clocks will turn to our time  
It won't be long  
It won't be, it won't be long, course it won't

Woo

This is the stage, you don't belong
