

Sound the Alarm (For Us Tonight)

Yashin

It's getting harder, still never easy
It's still the jury that'll not believe me
It comes to an end, it comes to an end, write this down
Right here, right now (2x)
Sound the alarm for us tonight

Don't hold back cuz we're getting older
Can't hold back, this is almost over
No I won't hold back, this is all I have
I won't stop for nothing, I'm the answer to this

Hold on, you have nothing to live for
Hold on, I would die for this

Don't hold back cuz we're getting older
Can't hold back, this is almost over
No I won't hold back, this is all I have
I won't stop for nothing, I'm the answer to this

All I see is spinning ground (And around and around)
But I still need to figure out (Why)
All of this never worked out, it's something I can't do without
And I've been here before
I've been through those doors with nothing more than my chance
to make this right
Sound the alarm for us tonight

Write this down
