

The Last One Standing

Yashin

And I will be the one
That looks you in the eyes
And I will be the one
That looks you in the eyes

So come on

You can't can't can't can't can't take it away
We'll wait for far too long
I'll be the one who'd fall to my knees again
I'll be the one who'd crawl to my feet again
And I was always pointing fingers

I will be the last one standing
The last one standing

Our day will come
Read between my lines
Too proud to see this coming
my three fingers on the rise
Fuck this I moved it
I carried the weight of you
And I was always pointing fingers
And I was always pointing fingers

I will be the last one standing
The last one standing
Too all of your chances
When you tore down your defences
And now you know
And now you know
And I will be
I'll be the last one standing

When the world ends
I'll be the last one standing
When the world ends
I'll be the last one standing

You've got a lesson to learn
These walls can't be broken
'Cause when the world ends
I'll be the last one standing
And I was always pointing fingers

We'll light it up and we'll set it off
And I'll never forget 'cause we've come so far
And I will be the last one standing

I will be the last one standing
(We'll light it up and we'll set it off
And I'll never forget 'cause we've come so far)

Our day will come!
