

Closing eyes
Do you fill overtaking pain?
Moving medial pictures...
You're vomiting with blood...
Murderer family...Shot child... Massacred body...
...The victim of attack...maltreated woman...
During spasms
You fill going through
You shutter
"Death Gate" is inside you
It's going - you fill again...
Wonderful dark world
Unnормally zone born by human
Dark walks through streets
Terror...Death...Plague...Clearence...
Last seconds of life, falling into abyss...
Shutter - murderer family
The last glance, clean event and place - shot child
The last conscience, speed and great hit - massacred body
The last move, cut larynx - the victim of attack
The last thoughts about children
Bloody eyes, broken bones - maltreated woman...
Revenge is coming slowly
The last want to come and live - through you...
You're to help them
To be the "Gate"
Millions of spirits are to pay
attention at you
Last want to fill...
Bestial world of murder
Unimaginable zone born by demons
Bright glitter flowing the world
Pain...Insanity...Cold...Clearence...
