

The Other Side Of Love

Yazoo

I know a good dance when the mood is right
You can do it by day you can do it by night
It can be so fine and you'll agree
If you just to what comes naturally now

Baby it's the other side of love
Baby it's the other side of love
Baby it's the other side of love
Baby, baby

There's plenty of ways we can do that thing
We can fool around till we get that swing
Come on do what you want honey we don't mind
If you just make sure that you stay in time now

Baby it's the other side of love
Baby it's the other side of love
Baby it's the other side of love
Baby, baby

Know a good dance when the mood is right
You can take it slow 'cause we've got all night
It can be so fine and you'll agree
If you just to what comes naturally now
