

Faces

Yeah Yeah Yeahs

I, I, I, I You
I, I, I, I You, You

What's he gonna
What's he gonna
What's he gonna get

So long you'll never be afraid

What's he gonna
What's he gonna
What's he gonna get

So long you'll never be the same

What's he gonna
What's he gonna
What's he gonna get

So long you'll never be afraid

What's he gonna
What's he gonna
What's he gonna get, get

So long you'll never be the same

Turn your head look right out
None of these faces matter
These are the ones you see right through
If it's gonna be it's all it's gonna be with you

I, I, I, I You
I, I, I, I You, You

I, I, I, I You
I, I, I, I You, You

Who knows where we are
All eyes alone
Tangled onto arms
Two arms are one

As long as we were young
Keep you always in love
Fall in hands
Feel you holding us up

As long as we were young
Keep you always in love
Fall in hands
Feel you holding us up

As long as we were young
Keep you always in love
Fall in hands
Feel you holding us up

Crying for you
Crying for you
Crying for you
Crying for you
Crying for you
Crying for you
Crying for you
Crying for you
