

## Faces

Yeah Yeah Yeahs

I, I, I, I You  
I, I, I, I You, You

What's he gonna  
What's he gonna  
What's he gonna get

So long you'll never be afraid

What's he gonna  
What's he gonna  
What's he gonna get

So long you'll never be the same

What's he gonna  
What's he gonna  
What's he gonna get

So long you'll never be afraid

What's he gonna  
What's he gonna  
What's he gonna get, get

So long you'll never be the same

Turn your head look right out  
None of these faces matter  
These are the ones you see right through  
If it's gonna be it's all it's gonna be with you

I, I, I, I You  
I, I, I, I You, You

I, I, I, I You  
I, I, I, I You, You

Who knows where we are  
All eyes alone  
Tangled onto arms  
Two arms are one

As long as we were young  
Keep you always in love  
Fall in hands  
Feel you holding us up

As long as we were young  
Keep you always in love  
Fall in hands  
Feel you holding us up

As long as we were young  
Keep you always in love  
Fall in hands  
Feel you holding us up

Crying for you  
Crying for you  
Crying for you  
Crying for you  
Crying for you  
Crying for you  
Crying for you  
Crying for you
