Machine

Yeah Yeah Yeahs

Wasteful season take my hand Take the place of the snakes who ran Savage things wash over me A crime that leaves a heated greed Oh Machine, Machine I washed it for you Machine, Machine I waste it for you And I walk And I walk A space left for two And I wait And I wait To wake next to you And I walk And I walk A space left for two And I wait And I wait To wake next to you Oh Machine, Machine I waste it for you Machine, Machine I waste it for you HAH! Oh Machine, Machine I washed it for you
