When it's missing then you want it more
It isn't right
Turning, turning out the door
And back to this
Leave it like it was before
And let me out
Must've been the end of the story

Giving it all, giving it all away You're gonna wake up someone Well study it all The wings, the crowd, your face You're gonna end up like one

Well, trouble at home
Travel the way you say
"The road don't like me"
Travel away
Travel it all away
"The road's gonna end on me"

Man, they like me
'Cause I'm a warrior, a warrior
Stand on my feet
Dance the warrior, the warrior
Where would I be?
I'd be a warrior, a warrior

Now the strangers have caught on And they're riding in the backseat The river's gonna wash all Yeah the river it spoke to me It told me I'm small And I swallowed it down If I make it all I'm a make you want me

## Hey!

Trouble at home
Travel the way you say
"The road don't like me"
Travel it all, travel it all away
"The road's gonna get on me"
And I'm small
The road's gonna get on me
Well if it gets it all
The road's gonna end on me

Hey! Hey, hey!

Like a warrior, a warrior Dance the warrior, the warrior
