Years & Years

I broke my bones playing games with you
Tired by fun, it makes me blue
Oh I, I think I'm into you
How much do you want it too?
What are you prepared to do?
I think I'm gonna make it worse
I talk to you but it don't work
I touch you but it starts to hurt
What have I been doing wrong?
Tell me what it is you want (3x)

Oh I think that if I have been enough for you
I'd be better, would I be good?
And I'll do what you like if you'll stay the night
You tell me you don't think you should
You do it boy, well
Love, if I were to let you go (4x)
Oh it's enough to feel better, if I could
