

## Without

## Years & Years

You're the first one, you're the champion  
You're the tall one, you are halcyon  
You don't belong to me, you're too far away  
And everything falls apart when I try to say

You're enough, in love without me  
So close your heart, you'll never find me  
Oh, you can hate me now  
Cause I'll be gone  
And I'll be with you or without

You can count wrongs, you can make it worse  
How could I have known you're a universe  
Follow the marks you left, feel the undertow  
Or that you thought you knew it's so hard to hold

You're enough, in love without me  
So close your heart, you'll never find me  
Oh, you can hate me now  
Cause I'll be gone  
And I'll be with you or without

Oh, you keep shivering into the night  
I can let you hold me  
And tell each other that we might survive  
If we keep it going  
Oh...

You're enough, in love without me  
So close your heart, you'll never find me  
Oh, you can hate me now  
Cause I'll be gone  
And I'll be with you or without  
And I'll be with you or without
