

Longevity

Yeasayer

Harmonizing, with a, go softly face
Just like the old days
Golden, seaplane, dollar, tossed in the take bin
What a bargain

Time will bear the yellow knife
Found oysters from the beach
Undressed from the waist
My girl says that

All the rain promises
Is to give life to the seeds, see
Live in the moment
Never count on longevity, please

Ribbons, showing, very, plainly on her skin
Okay i want in
Heels overhead, with her, never monetized
My lovely space case

The time done in bed with she [?]
Legs bruised up from the beast
Undressed from the waist
My girls says that

All the rain promises
Is to give life to the seeds, see
Live in the moment
Never count on longevity, please
