

## Wait For The Wintertime

Yeasayer

On a cold day, nothing's gonna stop us  
'Cause on a cold day, you can see forever  
On a cold day, nothing's gonna stop us  
'Cause on a cold day, you can walk through metal

In a brick yard, we'll be making babies  
In a brick yard, it's raining up in heaven  
Solid gold now, nothing's gonna stop us  
Solid gold now, solid, solid gold

A man can be happy with the weather  
As long as he doesn't love her

Snow will fall, be a storm, there's nowhere warm  
To run and hide  
Wintertime is a razor blade the devil made  
It's the price we pay for the summertime

In a brick yard, we'll be making babies  
In a brick yard, it's raining up in heaven  
Solid gold now, nothing's gonna stop us  
Solid gold now, solid, solid gold

A man can be happy with the weather  
As long as he doesn't love her

Snow will fall, be a storm, there's nowhere warm  
To run and hide  
Wintertime is a razor blade the devil made  
It's the price we pay for the summertime
