

# Eternal Legs

Yello

Across the space  
We fly around the world  
For years... years... years... years...

We're out of control  
Inside an iron ball  
Desire

We see the moon  
A color ball  
We won't be free again  
No choice

An iron box  
Electric brain release  
Away... away... away... away

A piece of steel  
That's all we ever feel  
No pain

We see the moon  
A color ball  
We won't be free again  
No choice

Desire  
We see the moon  
A color ball  
We won't be free again
