

Friday Smile

Yello

Tip top, de vi de dee
It only works with you and me
Tip top, de vi de doo
It only works with me and you

I like to see you smiling
It's all, it's all I need on Friday night
I know you're gonna drive me
At the exact right speed into the light

Show me the way to drive
I'm on the highway of love to dive
Into the world above
We're gonna hit the star of love

I know you're gonna drive me
At the exact right speed into the light
Might be the way you're smiling
Your smile your smile so bright on Friday night
