

I want you to realize  
Do you know you make me rise?  
You make me talking to the sky  
Look at you can mystify

I want you to exercise  
You should know you hypnotize  
Pictures, mirrors all around  
Passion, love, lost and found

Get on... Take me  
Get on... Right now  
Get on... Take me  
Get on... Right now

I want you to exercise  
You should know you hypnotize  
Pictures, mirrors all around  
Passion, love, lost and found

Get on... Take me  
Get on... Right now  
Get on... Take me  
Get on... Right now

I want you to realize  
Do you know you make me rise?  
You make me talking to the sky  
Look at you can mystify

Get on... Take me  
Get on... Right now  
Get on... Take me  
Get on... Right now
